

mercury::PacketHandler

```
classDiagram
    class mercury_ProtocolPacketHandler["mercury::ProtocolPacketHandler"]
    class mercury_PacketHandler["mercury::PacketHandler"]
    mercury_ProtocolPacketHandler --|> mercury_PacketHandler
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'mercury::ProtocolPacketHandler'. A blue arrow points upwards from this box to a gray box at the top labeled 'mercury::PacketHandler', indicating that 'mercury::ProtocolPacketHandler' inherits from 'mercury::PacketHandler'.
