

mercury::PortHandler

```
classDiagram
    class mercury::PortHandlerWindows
    class mercury::PortHandler
    mercury::PortHandlerWindows --|> mercury::PortHandler
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'mercury::PortHandlerWindows'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'mercury::PortHandler'. This indicates that 'mercury::PortHandlerWindows' inherits from 'mercury::PortHandler'.
